

Detroit Speed
Delrin™ Rear Leaf Spring Bushing Kit
P/N: 041403DS

Our Delrin™ Leaf Spring Bushing Kits provide the ultimate handling performance for leaf spring applications by reducing bushing compliance. Our bushings also offset the leaf springs inboard to gain more clearance with your Detroit Speed Mini-Tub Kit.

Item	Component	Quantity
1	Delrin™ Upper Leaf Spring Rear Outer Bushings	2
2	Delrin™ Upper Leaf Spring Rear Inner Bushings	2
3	Delrin™ Lower Leaf Spring Rear Bushings	2
4	Delrin™ Bushing Washers	8
5	Grease Gun Adapter	1
6	Instructions	1

1. After removing your stock shackles and pressing out your stock bushings (if applicable), ensure that the bushings are oriented in the shackles as follows:
 - a. The upper, two-piece bushings should be installed with the grease fittings facing toward the inside and front of the vehicle.
 - b. The lower, one-piece bushings should be installed with the grease fittings facing down and toward the outside of the vehicle.
2. Correct bushing configuration can be seen in Figure 2. This configuration is correct for standard and offset shackles. The included Delrin™ washers should be installed between the bushing and the shackle at each contact point as seen in Figure 1.

3. Installing the bushings can be made easier by pre-lubricating the bushings before pressing them into the springs and shackle mounts. After installation, the bushings should be lubricated thoroughly and checked for adequate lubrication from time to time.
